

Mohamed Rafeek M

Python Full Stack Developer | Fresher

📍 Erode, Tamil Nadu 📞 +91 8072506647 📧 rafirafibai@gmail.com 🌐 <https://portfolio-react-mr.netlify.app/>

◦ Experience ◦

IDM Techpark

Full Stack Developer (Trainee)

Erode

SEP 2025 - FEB 2026

Completed hands-on training in

Python Full Stack

Development. Developed full-stack web applications using Python and Django, implementing CRUD operations, user authentication, RESTful APIs, and MySQL database integration following MVC architecture.

Nxtwave Disruptive Technologies

Business Development Associate

Hyderabad

May 2024 – Jul 2025

Advised learners on technical and career programs, consistently achieving enrollment targets.

Delivered presentations and product demos, strengthening communication, client interaction, and negotiation skills.

◦ Skills ◦

Programming Languages

Python, JavaScript (JS), HTML, CSS

Frontend Frameworks & Libraries

React JS (JavaScript library for UI),
Bootstrap (CSS framework)

Backend Frameworks

Django (Python web framework)

Web Concepts

REST APIs, JSON, AJAX

Databases

SQLite, PostgreSQL, MySQL

Tools

Git, GitHub, VS Code, npm

◦ Education ◦

Bharathiyar University (GASC)

B.A. Economics

CGPA: 6.2 / 10

Bachelor

2020–2023

Summary

Motivated Python Full Stack Developer with practical experience developing end-to-end web applications using Django, MySQL, and modern frontend technologies. Skilled in designing RESTful APIs, implementing authentication and authorization systems, and building responsive user interfaces. Strong understanding of MVC architecture, backend logic, and version control using Git. Seeking an entry-level opportunity to apply technical skills and grow as a full stack developer in a collaborative environment.

Projects

YouTube – Video Sharing Platform

Built a full-stack video streaming web application using Python and the Django framework. Implemented user authentication, video uploads/streaming, playlists, comments, likes/dislikes, and search functionality using PostgreSQL/SQLite. Designed a responsive UI with Bootstrap and ensured scalability with modular architecture and unit testing.

Django, SQLite, JavaScript, HTML5, CSS3, Bootstrap, REST API Development, User Authentication, Video Streaming, Media File Management, Playlist Management, Search Optimization, Database Design, Git

Hotel Management System

Developed a full-stack hotel management web application using Python and the Django framework. Implemented user authentication (**including Google OAuth**), **table reservations**, **menu ordering**, **cart system**, **payment processing**, **and an admin dashboard with role-based access**. Built with SQLite, Bootstrap, and modular Django apps to ensure scalability and maintainability.

Python, Django, SQLite, HTML5, CSS3, Bootstrap, User Authentication, Google OAuth, Reservation System, Booking Management, Order Management, Cart System, Payment Integration, Admin Dashboard, Role-Based Access Control, Email Integration, Modular Architecture, Git, Full-Stack Development

E-Commerce Platform

Developed a full-stack e-commerce web application using Python and the Django framework. Implemented user authentication, product catalog, shopping cart, order management, coupon system, and secure payment integration. Designed a modular architecture with separate apps for accounts, products, cart, orders, and payments, ensuring scalability and maintainability. Built responsive UI using HTML, CSS, and Bootstrap.

Python, Django, SQLite/PostgreSQL, HTML5, CSS3, Bootstrap, E-commerce Development, User Authentication, Product Catalog, Shopping Cart, Order Processing, Payment Gateway Integration, Coupon System, Admin Dashboard, Inventory Management, Database Optimization, Git, Full-Stack Development

Student Record System

Built a full-stack student management web application using Python and the Django framework. Implemented authentication, CRUD operations for student records, and responsive UI with HTML, CSS, and JavaScript. Deployed with SQLite and environment-based configuration.
